

## **CHAPTER IV HISTORIC AND CULTURAL RESOURCES**

### **INTRODUCTION**

There are many reasons for preserving historically significant resources and their surroundings. Among the most compelling are psychological ones, reasons which are associated with the continuity and quality of life. Older buildings provide us with tangible links to the past; they give us a sense of the continuity of time and place. Just as important, they become part of our own lives. These historic, cultural, and architectural riches frequently bear a relation to events, eras, or persons in history which help to define us as a cultural group.

Many historical sites have been lost through the years due to growth and development.

#### **INSERT PARAGRAPH ABOUT SITES LOST**

Gradual and pervasive erosion of the historical character can happen with the accumulation of incremental changes to buildings and places. It is our challenge to ensure that this does not continue to happen in Sutton. Historic preservation is an important issue to Sutton residents, as evidenced through the Community Survey where over 75% of the survey respondents felt that the Town should use regulations and ordinances to protect and preserve historic sites, buildings, and village centers. .

Over the years, Sutton has lost some important historic resources to development and neglect. This list of lost resources includes the **XXXXXX**. Preservation should not be a reaction to a crisis, but part of the planning process. Preservation does not and should not be thought of as prevention.

This Chapter looks to highlight local historic and cultural resources, describes why they are significant, and looks to provide the resources, recommendations, and tools to plan for the preservation, protection, and enhancement of those resources.

### **1988 MASTER PLAN – HISTORIC AND CULTURAL RESOURCES RELATED TOPICS**

The first Sutton Master Plan was adopted in 1977 and subsequently updated in 1987 and again in 1988. The following goal – “Goal Three” - was highlighted in the 1988 updated Master Plan, along with objectives and recommendations on how to meet the goal.

Goal: To conserve and enhance the natural, scenic, and historic assets of the Town.

#### **1988 Objectives**

- 1) To identify and mark areas of scenic and historical significance.
- 2) To create and maintain an inventory of the important and/or unique historical and scenic assets of the Town.

3) To guide development so that these assets and values are preserved and enhanced.

1988 Recommendations

- The Conservation Commission should prepare an inventory of natural, scenic, and especially historic sites in Town.
- The documentation and preservation of the tangible as well as the non-tangible features of the past history of the Town is encouraged.
- Public involvement in past and current Town affairs is encouraged.
- Items of importance to recognize are: town bounds, early roads and settlements, grants and divisions, everything of Indian origin, oldest homes and names, oldest work sites, town documents and records, cemeteries, school houses and sites, maps, photographs, written memoirs, and local antidotes.

**COMMUNITY SURVEY RESULTS**

In June 1999, a Master Plan Community Survey was mailed out to approximately 600 property owners. 195 surveys were returned for a 32% response rate. The following five survey questions relate to the transportation infrastructure in Sutton.

**Please tell us why you think Sutton is an attractive place to live.**

	<b># Responses</b>
Sense of community	5
Historical	5
Volunteerism	1

**Of all the values you place on living in Sutton, name the single most important to you.**

	<b># Responses</b>
Sense of community	3
Volunteerism	1

**Please describe how you would like Sutton to be in 20 years.**

	<b># Responses</b>
Better Library	3
More active, vibrant	3

**Should the Town seek to preserve and protect the following resources through its Ordinances and Regulations?**

<b>Resource Value</b>	<b># Responding Yes</b>	<b>% Responding Yes</b>
Historic Buildings	172	88.2%
Historic Sites	166	85.1%
Village Centers	150	76.9%

**Would you be in favor of spending tax dollars on special situations to protect or acquire natural or cultural resources through purchase or conservation easement?**

	<b># Respondents</b>	<b>% Responding</b>
<b>Yes</b>	135	73.4%
<b>No</b>	19	10.3%
<b>No Opinion</b>	30	16.3%
<b>Total</b>	184	100%

**HISTORY OF SUTTON**

**COMMUNITY CORNERSTONES PROJECT**

The Community Cornerstones Project was an outgrowth of then Governor Judd Gregg’s Commission on New Hampshire in the 21<sup>st</sup> Century. The Community Cornerstones Project is designed to help towns identify various aspects of the natural and built environment which are important to the heritage of the town. The long-range goal of the project is for each town to develop a plan to protect each Cornerstone for negative impacts as New Hampshire becomes more populated.

Sutton participated in this project through a group of volunteer townspeople. The Committee distributed a survey to the Town in early November 1990 and generated a list of about 30 nominations for Cornerstones. The nominations covered many different categories of historic sites, buildings, and Town event. Some of the Cornerstones were general and some specific, with some being publicly-owned and some privately owned. A second round of informal volunteer balloting was held at the 1991 March Town Meeting in order to focus the list to 21 Cornerstones, which are listed below.

- 1) South Sutton Village<sup>1</sup>
- 2) Sutton Mills Village
- 3) North Sutton Village
- 4) Eaton Grange
- 5) Muster Field Farm/Harvey Homestead
- 6) Wadleigh Homestead
- 7) Schoolhouses and sites
- 8) Settler’s Oven
- 9) Indian Fireplace
- 10) Jones Gristmill Site
- 11) Town Pound

---

<sup>1</sup> Each Village consists of several historic sites and buildings, which have been identified in the nomination process. Generally, the Cornerstone should be considered as the central, thickly settled portion of each of the Villages.

- 12) King Hill Quarry
- 13) Palmer Town/Sutton gore
- 14) Scenic Roads
- 15) Scenic High Places
- 16) The Pinnacle
- 17) Old Home Day
- 18) Fourth of July Parade
- 19) Muster Field Farm Day
- 20) Icing Day
- 21) Children's Christmas in South Sutton

The purpose of going through the Community Cornerstones Project is to document community consensus about which aspects of community life are the most important to preserve and protect. Most of the 21 Cornerstones are discussed and mapped in this Chapter on historic and cultural resources. The Scenic Roads and scenic vistas are discussed in the Transportation Chapter and the Natural Features, respectively.

## **HISTORICAL RESOURCES**

### **National and State Register of Historic Places**

Having a property listed in the National or State Registers of Historic Places can contribute to the preservation of historic properties in a number of ways, which include:

- Public recognition that a property is significant to a community;
- Consideration and advocacy in the planning of local and state funded or otherwise assisted projects;
- Qualification for state financial assistance for preservation projects, when funds are available; and
- Special consideration or relief in the application of some access, building and safety code regulations;

### **National Register of Historic Places**

Under the terms of the National Historic Preservation Act of 1966, the U.S. Department of Interior's National Park Service maintains the National Register, which lists the Nation's cultural resources worthy of preservation. The National Register is the Nation's roster of properties that are important in history, architecture, archeology, engineering, or culture. Properties may be nominated individually, in groups, or by Districts. The nomination process requires careful documentation as to a site's historical significance. In addition to buildings and bridges, other categories - such as Main Streets and roads, villages, parks, and monuments - can be listed.

Sutton currently has the one site listed on the National Register, which can also be seen on the **National Register, State Historic Marker, and Local Historic Marker Location Map**. The site on the National Register is the birthplace of John Sargent Pillsbury (1828-1901). Pillsbury is remembered for his distinguished service as Governor of Minnesota and his outstanding career as an entrepreneur with a marker near the place of his birth. He, his brother, and his nephew started Pillsbury Flour Milling business around 1855 in Minneapolis, MN. He was elected three

times as the governor of Minnesota and had an illustrious career as a public official, and is today remembered as a pioneer of the baking industry. The site is located on the common in South Sutton at the junction of NH 114 and Meetinghouse Hill Road.

There are a number of benefits for properties listed on the National Register. These include the provision for special review and mitigation if a road widening, or other project using Federal funds is undertaken in the vicinity, and the possible eligibility for Federal benefits. These include charitable deductions for donations and easements, grants for preservation, and investment tax credits for the rehabilitation of income-producing buildings.

No additional regulative restrictions are placed upon those properties that are listed on the National Register; but instead, a listing in the Register recognizes the property's significance, encourages the stewardship of the property or resource, and stimulates local pride, appreciation, and commitment to preservation.

#### New Hampshire State Register of Historic Places

The New Hampshire State Register of Historic Places is one part of the state's efforts to recognize and encourage the identification and protection of historical, architectural, archeological and cultural resources. These resources may be buildings, districts, sites, landscapes, structures or objects that are meaningful in the history, architecture, archeology, engineering or traditions of New Hampshire residents and communities. The State Register is administered by the New Hampshire Division of Historical Resources (NHDHR), which is the state's Historic Preservation Office. Sutton currently no sites listed on the State Register.

Owners of private property listed on the State Register are free to maintain, manage, or dispose of their property as they choose, without oversight or comment from the NHDHR, provided that no state monies or permits are involved.

All properties listed on the State Register are documented and evaluated against the following criteria. These broad criteria are designed to guide individuals, local governments and others in evaluating potential entries in the State Register. Properties not specifically described in the text below may still be eligible.

- Properties may be listed on the State Register for the story they tell.
- Properties may also be meaningful for their associations with people who made important contributions to a community, profession or local tradition.
- Properties may be listed on the State Register for their tangible merit, either as a well-preserved example of local architecture, design, construction or engineering, or as long-standing focal point in a neighborhood or community. These types of resources need not be extraordinary or the best example in town; they often can be a common, although irreplaceable, feature on the New Hampshire landscape.
- Identified, but unexcavated and unevaluated archeological sites may also be listed.

Generally, properties eligible for listing on the State Register should be at least fifty years old. Properties approaching the fifty year mark can be listed, if their historical values are already clear.

## **Recommendations**

- The Town should support individuals and organizations that are proposing sites in Town to be placed on the National Register or the New Hampshire State Register of Historic Places by providing applicable information and resources.
- XXX should increase public education regarding the location and significance of National Register site in Sutton.
- Establish a permanent source of funding for the maintenance of the existing, and the establishment of new, National and State Register sites, as well as the printing and distribution of material about the sites.

## **State and Local Historic Markers**

Many historic and cultural resources within the Town deserve to be highlighted and identified through State and Local Historic Markers for the purpose of public education.

### State Historic Markers

The Historical Marker Program is one way that New Hampshire remembers its past. The New Hampshire Division of Historical Resources is responsible for approving the subject, location, wording, and accuracy of the State Markers. The authorizing official of the historical marker program is the Commissioner of Transportation, who has the power to erect up to ten markers per year. The only way a marker can be placed in a Town is in response to a proposal and petition of twenty signatures from concerned citizens. These markers can be erected on State and local roads. However, the initial costs of the markers and on-going maintenance are local responsibilities. Some of the marker locations contain tangible reminders of the past, while others mark the locations where structures once stood or a historical event took place.

Sutton has one State Marker at the birthplace of John Sargent Pillsbury. See the National Register section for a description of this site. The location of this State Historic Marker can be seen on the **National Register, State Historic Marker, and Local Historic Marker Location Map**.

### Local Historic Markers

Local Markers, or the actual remnants of the structures themselves, indicate the sites of various other historic landmarks and events. Sutton has XXX sites that are identified as Local Historic Markers throughout Town, which are listed below. The location of these local markers can be seen on the **National Register, State Historic Marker, and Local Historic Marker Location Map**.

#### *Muster Field Farm Museum*

This marker commemorates the historic Harvey Homestead.

#### *Smiley Grove*

This marker commemorates the many summer camps and hotels were located at Smiley Grove on Lake Blaisdell.

#### *Sutton Free Library*

A marker stands at the entrance of the Sutton Free Library in the Sutton Mills Region.

#### *Province Road*

A marker lies next to Province Road at the East Sutton Cemetery.

### **Recommendations**

- XXX should increase public education regarding the location and significance of State and Local Historic Markers in Sutton.
- XXX should investigate the designation and placement of additional State and Local Historic Markers at sites within Town.
- Establish a permanent source of funding for the maintenance of the existing, and the establishment of new, State and Local Historic Markers, as well as the printing and distribution of material about the Markers.
- XXX should have oversight of the maintenance, preservation, replacement, and expansion of the Local Historic Markers in Sutton.
- Create a standard format for Local Historic Markers so that they are easily identifiable.
- XXX should create a map of the local historic sites, with information about each one that can be used for self-guided tours.

### **Historic Structures**

The following historic structures – Town-Owned Historic Structure, One-Room Schoolhouses, and Churches – were chosen for inclusion in this Chapter for many reasons. The most important being that the Town already owns many of them and therefore, should be taken care of and highlighted because of their historic and cultural value. Secondly, these resources are the one that the community identifies with as part of the Town's past. Lastly, although there are numerous other examples of privately owned homes and other structures within town that are of equal historic importance, the time and resources were not available to do a complete inventory.

#### Town-Owned Historic Structures

The Town of Sutton currently owns X buildings of historic significance. The Town-owned buildings are listed below with descriptions of their historic significance.

#### One-Room Schoolhouses

Also known as the rural school, these schoolhouses were the earliest educational systems in America. Sutton had 13 original one-room schoolhouse's and X are still remaining, which are indicated in the list below.

- 1) Old South School
- 2) North School
- 3) Eaton School
- 4) Center Mills School
- 5) Northwest School
- 6) Northeast School
- 7) Buck Union School
- 8) Gore School
- 9) South Center School

- 10) Kendriels School
- 11) Todd's School
- 12) Burpee School
- 13) Poplar District School

### Churches

Throughout history, religion has played an important role within a community and this section tries to highlight those remaining houses of worship still remaining in Sutton.

The locations of the Town-owned historic structures, one-room schoolhouses, and churches can be seen on the **Historic Structure and Cemetery Location Map**.

### **Recommendations**

- Create a management plan for all town-owned historic buildings that includes scheduled maintenance and rehabilitation, proposed uses, and funding sources for the preservation of these buildings.
- Increase focus on maintenance and repairs at the existing town-owned historic buildings in the Capital Improvements Program (CIP).
- Town should put aside funding each year for the purchase of additional historic resources, sites, and structures that may become available.
- Ensure that historical information located in town – books, papers, artifacts, etc. – are stored using the best preservation and conservation practices, are properly catalogued and accounted for and are accessible to the public, where feasible.
- Encourage the use of the town-owned historic building for the education and display of historical resources, i.e. maps, documents, books, artifacts, etc. that can be accessible to the public to their use and research.
- Create a permanent source of funding for the XXXX to preserve, protect, display, and educate residents about Sutton's history.
- Support individuals and businesses that may want to purchase historic structures by making architectural and historical resource materials available to them. By providing these materials to property owners whom are interested in acquiring historic structures, you are helping them understand the structures historic and long-range value to the Town and the importance of its preservation.
- XXX should increase education about the importance of historic buildings through the use of historic photographs and brochures to be displayed at the various historic buildings and in other public places.

### **Cemeteries**

Cemeteries - both Town-owned and small private family plots - are an important and personal link to the past. Cemeteries, whether they are historic family plots or larger and newly established, play an important and visible role in the history of Sutton. The goal is to ensure that all cemeteries within Town are well maintained and protected to preserve their historic characteristics.

The following is a chart of historic cemeteries located in Sutton. The location of these cemeteries can be seen on the **Cemetery and Historic Structures Location Map**.

<b>Cemeteries</b>	<b>Location</b>	<b>Ownership</b>
North Sutton	Off Route 114, by Kezar Lake	Town
Sutton Mills	Sutton Mills, off Village Road	
Millwoods	Between the Lane River and Dump Road	
Old South	Off Meeting House Road	
East Sutton	Southeastern Sutton, off East Sutton Lane	
Sutton Gore (Palmertown)	Off Kearsarge Gore Road	
Blaisdell Hill		

Cemetery Commission?????????

**Recommendations**

- Create a permanent funding source for the repair and maintenance of headstones and historic Town-owned cemeteries.
- The XXX should conduct a detailed inventory of all historic cemeteries in Town, which should include photos of the headstones, a map of each cemetery with the layout, a copy of what each headstone says, and an assessment of the condition of each headstone at the time of inventory.
- The oversight of alterations to and the preservation and care of the historic cemeteries located in Sutton should belong to the XXXX.
- Ensure that the historic importance of established cemeteries are taken into consideration when any type of development is proposed that may impact the cemeteries and that appropriate precautions are taken, such as the establishment of buffers.

**Railroads**

Railroads were one of the strongest forces that helped to convert America from a primarily agricultural country to a primarily industrial nation. In the 1840’s railroad fever hit New Hampshire and Sutton was no exception. Rapidly laid rail lines followed 1842 and changes spanned the state. Trains forced local farmers to produce perishable goods for sale locally because grains and other products from the west were available from the growing national market. The spread of railroads to towns of New Hampshire also increased the speed of life for rural communities. People were able to travel farther in shorter amounts of time.

**Recommendation**

- Educate the public about the Town’s railroad history by republishing and displaying historic maps and pictures.

**CULTURAL RESOURCES**

In a Town like Sutton, cultural resources are difficult to isolate from historical resources because one is often part of the other. The following list highlights some of the Town’s resources, which

are often described as being cultural. Some of the resources are run by the Town, while others have benefited from an association with the Town but are privately directed.

### **Fourth of July Parade**

### **Muster Field Farm**

### **Old Home Day**

#### **Recommendations**

- Work with cultural organizations to locate presentation and display spaces within the Town to highlight their work and/or programs.
- Work with cultural organizations to explore ways to meet the needs of residents not currently being served.

### **RESOURCES TO MEET HISTORIC AND CULTURAL RESOURCES NEEDS**

Sutton has a rich historical legacy that is evident in its buildings, landscapes, and patterns of development. These resources contribute to the quality of life in the community and provide a sense of identity that many residents enjoy and find important to them. The strategies listed below can help ensure that these resources are protected and preserved so that future generations may not only learn from them, but also enjoy them.

#### **Barn Owner Tax Relief**

RSA 79-D authorizes municipalities to grant property tax relief to barn owners who can demonstrate the public benefit of preserving their building and who also agree to maintain their structure throughout a minimum 10-year preservation easement. On or before April 15<sup>th</sup> of the new tax year, owners of historic barns or other farm buildings may seek relief by applying to their local governing body to grant a discretionary preservation easement to the municipality and by agreeing to maintain the structure in keeping with its historic integrity and character during the term of the easement. For more information contact the New Hampshire Division of Historical Resources.

#### **Citizens for New Hampshire's Land and Community Heritage**

A coalition of organizations that are working to protect the special places that define our state. This coalition provides technical assistance, outreach, and education, which are available to communities and organizations.

#### **Conservation License Plate Grant Program**

The NH Division of Historical Resources provides grants under the Conservation License Plate Program, commonly called the “Moose Plate” program, for the preservation of significant publicly owned historic resources or artifacts that contribute to New Hampshire’s history and

cultural heritage. Grants are available to municipalities that own historic properties or significant publicly owned historic and archaeological artifacts, as well as non-profit organizations that manage publicly owned and publicly accessible historic properties or artifacts that contribute to New Hampshire's cultural heritage.

### **Cooperative Ventures with Private Organizations**

When the interests of the Town to conserve historic or cultural resources match with the interests of a private organization, the potential for a cooperative partnership exists. This tactic will require some creative thinking and introductory discussions by Town officials with area organizations that have, or could develop, an interest in conserving such resources.

### **Grants from Foundations**

The Town should research available grants and develop proposals to seek funding for the conservation of particular pieces of property or other historical resources within Town. Funding could be sought from foundations at the local, state, regional, and national level.

### **Land Trust**

The Town should support non-profit land trusts that accept and pursue property and easements for land of local historic and cultural concern.

### **Library and Archives of New Hampshire's Political Tradition**

First of its kind in the nation, the Political Library is designed to provide both an important historical record and insight into the primary election campaign process itself. The Library collects, organizes, and makes available, to scholars, students, campaign managers, reporters, current candidates and future aspirants, the only comprehensive collection of election campaign papers and paraphernalia from half a century of New Hampshire presidential primary history

### **National Trust for Historic Preservation**

For more than 50 years, the National Trust has been helping Americans protect the irreplaceable. A private nonprofit organization with more than 200,000 members, the National Trust is the leader of the vigorous preservation movement that is saving the best of the country's past for the future. The Trusts mission statement is: The National Trust for Historic Preservation is a privately funded non-profit organization that provides leadership, education, and advocacy to save America's diverse historic places and revitalize out communities.

### **New Hampshire Department of Cultural Resources**

The Department of Cultural Resources serves New Hampshire's citizens in local efforts to broaden minds and spirits, preserve history and culture for future generations, and to recognize and promote our cultural resources as an essential element of New Hampshire's economic and social well being. The DCR is committed to

- Provide leadership in public policy and cultural affairs and thus provide the framework for culture's definition in the state
- Coordinate statewide information services and thus provide small business and individuals with the tools to succeed in today's economy
- Stimulate cultural tourism and thus stimulate the economy

- Encourage historic preservation, including the review of highway construction projects, and thus maintain the historic character of New Hampshire's cities and towns
- Support arts in education and thus create a productive, imaginative workforce for New Hampshire in decades ahead
- Support cultural institutions and individual artists and craftspeople, and thus leverage private-sector support for the activities which enhance our quality of life
- Engage in partnerships with other state agencies and private businesses and thus multiply the effect of public funds
- Encourage programming which includes people with disabilities and thus serve all public sectors in arts and culture

### **New Hampshire Division of Historical Resources**

The Division of Historical Resources, located in Concord, was established in 1974 as the "State Historic Preservation Office." The resources and materials available at the NHDHR include National Register of Historic Places criteria; New Hampshire historical marker programs; the offices of the State Architectural Historian, State Curator, State Archeologist; preservation tax incentive programs; historical survey programs; and grant programs.

### **New Hampshire Historical Society**

The New Hampshire Historical Society, in Concord, is an independent, nonprofit organization and is accredited by the American Association of Museums. The services and resources that the New Hampshire Historic Society provides include the Museum of New Hampshire History, the Tuck Library, a museum store, a newsletter and quarterly calendar, and technical assistance to local libraries, historical organizations, and citizens.

### **New Hampshire Preservation Alliance**

The Alliance was founded in 1985 and works to preserve New Hampshire's historic buildings, landscapes, and communities through leadership, advocacy, and education.

### **New Hampshire State Library**

The New Hampshire State Library houses approximately 2,400 titles of published family histories for New Hampshire and New England. This collection is enhanced by the unique name index to early town records on microfilm. The town records, ranging in years for each town, but falling roughly between the years 1640-1830/1840, can provide birth, death, and marriage dates, as well as a listing of such items as tax inventories. Other major resources available include town and county histories, annual town reports, Federal census records for New Hampshire (1790-1920), local newspapers on microfilm, the genealogical column of the "Boston Transcript," legislative biographies (1890 +), city and county directories, and military records.

### **Preservation Easements**

Preservation easements are initiated by landowners who wish to protect their land from future development, while still retaining owners rights. Farms, buildings and scenic and historic areas all have the right to be protected by an easement. Perpetual easements protect the land or structure through subsequent owners, while term easements have a set time period agreed to by the town and current owner. Perpetual easements often reduce the estate tax on large amounts of property, though the decision to award tax relief is officially decided by State Law, local

officials, and town assessors. For more information contact the New Hampshire Division of Historical Resources.

### **Revolving Funds**

Revolving funds help protect and preserve publicly significant historic properties by using options to purchase, direct acquisition, or deed of gift to acquire threatened or endangered properties. Profit from the sales are rolled back into the fund to help save other endangered properties and perpetuate the fund. The National Preservation Loan provides loans to establish or expand local and statewide preservation revolving funds.

### **Sutton Historical Society**

The Historical Society is a private non-profit that was established in XXXX. Its mission is:

- 1) The stimulation and development of interest in the history of the Town of Sutton;
- 2) The identification, collection, ownership and preservation of property, and of facts of historical significance to the Town of Sutton and/or its residents;
- 3) The education of Sutton's residents and other interested individuals and organizations about the history of the Town;
- 4) To cooperate with other societies as appropriate for the furtherance of these purposes;
- 5) To maintain adequate fiscal condition which will provide for normal annual requirements and proper upkeep of its buildings; and
- 6) Special fundraising activities shall be conducted, as needed to assure the above.

### **Sutton Library**

### **Sutton Municipal Records**

### **Tax Rehabilitation Credits and Incentives**

Income tax deductions may be granted for two types of historic properties, a historically important area, or a certified historic structure. A twenty percent tax credit is given by the government for rehabilitation of certified historic structures. The Bank of America Historic Tax Credit Fund grants equity investments for the rehabilitation of historic commercial and residential properties eligible for the federal and state historic tax credit, as well as the 10% non-historic federal tax credit.

### **Transportation Enhancement Funds (TE)**

Transportation Enhancements Program (TE) is another viable source for improving communities. Funding for the TE program is slightly more than \$3 million dollars annually. These funds are provided in an 80/20 match, with the State paying for the majority of the project cost. Typical examples of projects eligible for TE funds include:

- Acquisition of scenic easements and scenic or historic sites
- Scenic or historic highway programs
- Historic preservation
- Rehabilitation and operation of historic transportation buildings, structures, and facilities

- Preservation of abandoned railway corridors
- Archaeological planning and research
- Establishment of transportation museums

## **CONCLUSION**

Founded in XXXX, Sutton has a long and distinguished history that deserves to be memorialized. Sutton's historic resources range from farmlands, forests, stonewalls and waterways to cemeteries, farmhouses, barns, community buildings, churches and the sites of former buildings.

Particularly during a time of rapid growth, Sutton should move more aggressively than it has in the past to protect its resources. These measures should include not only conservation steps to protect the town's natural resources, but initiatives to guard buildings and sites that were significant in the community's early life and growth.

Town officials and community groups should begin the process of placing significant structures and sites on national and state historic registers. Additionally, they should encourage the formation of private organizations that can begin to preserve and, when appropriate, acquire buildings and sites.

For the benefit of both the present generation and those who will follow, we need to establish permanent reminders of the people, sites and buildings that were part of the history and development of Sutton.
